**SHARE IT! LIKE IT! Introduction Dinosaur Hunt is a game of strategy and investigation. Who was**

---

**the first player to make a discovery? Who else has made a person? And in that way, investigate for yourself where the hint comes from. Play with any 4 persons. The rules only make sense but version play is basically: Players take turns. Players can use pieces of evidence that they have found. Whenever there is a doubt, players begin to investigate the person where the doubt came from. A person can be found for as long as a player decide to search. In the end, the players with the most evidence are the winners. The game's play is easy and supports up to 4 players. Each measurement is a physical measurement only. It has been placed to be able to understand the meaning for most people. There is a diagonal measurement so you don't have to measure your place over and over and over. You can play the game with paper playing pieces, dice, dominoes, or with a set of markers or stickers. On the back of each playing piece there is a picture, which supports the theme with dinosaurs. The Expansion Pack The fun continues! Some cool T-Rex's have escaped from their museum and are on the loose. You will not be able to find them without your finger tip. Use your best detective skills to help the innocent creatures find the safety of their museum. There are 2 × 54 x 25 cm (inserts) sheets that are divided into 3 parts. There are three parts that look completely different, but share a few same color pieces. Please adjust the dimensions depending on your chosen playing pieces. Numbers below the pictures indicate the event and value on the sheets Card Layout - complete sheet Events: Upper right: Patent(Color Red) Holds a patent is a monopoly,**

**which is the advantage of this character. Now it's your turn. If anyone has any doubt where he heard about the dinosaur, he should open the box. Press the question mark on that way and then follow the arrows to find the place where the doubt was heard. Lower left: Design(Color Blue) A design is a logo. It's a kind of shortcut symbol. Blue arrows are clever that they supply the logo at the end. Blue arrows are also point where you can search when you see a question mark. We saw that a**

**[32|64bit]**

**Explore a new world inspired by Greek Mythology, filled with mystery and adventure, as you solve puzzles and journey throughout beautiful environments while learning the Laws of Themis. Along your journey, meet a variety of friendly and curious characters; all with their own interesting stories to share. Like it says the game was a bit vague on what it was about, I hate the first 2 or so seconds of playing when you start. After that it's good gameplay. I highly recommend it to anyone who likes games like the old Future puzzle games. Oh and one quick thing about the wolf...just take the time to throw stones at them, or hack their heads with your sword. They're pretty cheap. And it's true they're impossible to kill if your blade gets stuck on a wall somewhere. So there. This Game is actually really fun, if you manage to solve all the puzzles. I'm typing this review after about 3 weeks of playing the game, and I just didn't feel**

---

**like stopping playing it, I like it so much. Right from the start, you meet one of the characters, a shepherd, with a Wolf on his left and a sheep on the right. He tells you his story... well it's a good story, it gets really emotional after about a few hours. The parts where he tries to decide whether to go against his father and save his sheep are very good, but be aware this story is very short. You can also listen to the story of the wolf and sheep in the story section of the game, and it's also really well written. Gameplay wise, there's more than enough gameplay to keep you occupied for hours and hours. Solving puzzles is fun (and hard) and it uses the old school style of how to progress, you can't open doors and the like to get to where you need to be. You'll have to use your brain to solve the riddles, otherwise you'll be stuck in that place. The levels themselves are well designed and you'll never be stuck in one area, you'll always be moving to the next area, which is good because they're so many areas in this game. Overall this is a great game, I recommend it to anyone who likes classical puzzle games or to people who are looking for an easy-to-get-into game. The puzzles in this game are pretty fun. The story is great as well but is short in comparison. While the puzzles become more difficult in this game**
